

ON SITE DIALYSIS WITH CONCERTO

Founded by seasoned nursing home experts, Concerto understands the needs of skilled nursing home patients. This knowledge, combined with a clinical team of leading dialysis specialists, has positioned Concerto as the industry leader in nursing home dialysis and Alden's preferred partner in care.

Benefits of Partnering with Concerto

Increased Revenue

Attract clinically complex ESRD patients.

Cost Savings

Avoid costly ambulance or medicar rides.

Convenience and Safety

Promotes safety and infection control.

Hospital Partnerships

Increased access to locally-hospitalized patients.

Rehabilitation

Residents have more time to focus on wellness goals.

Continuity of Care

SNF and Concerto clinical teams work in harmony.

The Concerto + Alden Difference

- Provides traditional three-day hemodialysis services to nursing home residents, on site
- Delivers technology and human resources to your doorstep
- Adds value to a nursing home and positions operators as market leaders in sub-acute dialysis care.

"As a hospital discharge planner at a busy city hospital, knowing that I can discharge patients with dialysis needs to a Concerto serviced nursing home is a game changer." -Samantha L., Chicago, IL

Benefits For The SNF

- Fast admission process
- Increased admissions
- No transportation cost
- Reduced risk of:
 - spread of contagious illness
 - injuries associated with accidents
- Improved coordination of care

Benefits To The Patients

- Dialyze in place
- Enhanced quality of life with more time for facility activities, social time, rehab (PT, OT, RT)
- Improved clinical coordination of care-reducing hospital readmissions
- Follows patients current 3 days/week dialysis schedules

Benefits For The Hospital

- Reduce length of stay
- Reduce avoidable readmissions
- Increase patient options for dialysis in conjunction with SNF stays
- Improved discharge process for one of the most challenging patient populations (Vents, Bariatric, Trachs, Lifevest)
